EXECUTIVE SUMMARY

Senior UX/UI Designer, Design Technologist, and Frontend Developer with 14+ years leading user-centered product design across enterprise B2B SaaS, national commercial marketplaces, and high-volume e-commerce platforms. Pioneer in AI-augmented software delivery, bridging product strategy, component-driven design systems (SvelteKit, React, Tailwind), and frontend execution with agentic AI workflows (Cursor, LLM coding agents) to collapse 0-to-1 product delivery from months to weeks.

CORE COMPETENCIES & TECHNICAL SKILLS

Product & UX/UI:	Design Systems Architecture, Enterprise SaaS, Mobile-First Design, User Flows, Prototyping, A/B Testing, CRO, Info Architecture.
AI & Agentic Tools:	Cursor, Agentic Code Generation, Prompt Architecture for Design Systems, LLM Prototyping, Context-Engineered Handoffs.
Design Software:	Figma, Adobe XD (Primary), Framer, Sketch, Adobe Creative Suite (Photoshop, Illustrator, InDesign).
Frontend & Code:	HTML5, CSS3/SASS, Tailwind CSS, JavaScript (ES6+), React, Svelte/SvelteKit, Node.js, Shopify Liquid, Git, Web Security (XSS).
Research & Strategy:	Google Analytics (GA4), Solr Search Analytics, User Interviews, Multivariate Testing, Agile/Scrum Leadership.

PROFESSIONAL EXPERIENCE

Principal UX/UI Product Designer & Founder • **MicStand.io & Rental Reactor** Sep 2025 – Present | Remote

- **End-to-End Product Leadership:** Owned product vision, UX architecture, visual branding, and system specifications for live event SaaS (MicStand.io) and multi-platform RV rental management (Rental Reactor).
- **Agentic AI Acceleration:** Leveraged agentic engineering workflows (Cursor, LLM coding agents) to build and deploy production applications as a solo product and engineering operator, establishing prompt architectures for clean system maintainability.
- **Design Systems & Revenue:** Architected component-driven design systems and responsive interfaces; integrated automated Stripe billing workflows and custom analytics dashboards to maximize retention.

Frontend UX/UI Developer & Principal Product Designer • **Work Truck Solutions (Comvoy.com)** Apr 2019 – Jun 2025 | Chico, CA (Remote)

- **Design Ecosystem Ownership:** Served as sole designer managing multi-platform B2B ecosystem serving thousands of commercial vehicle dealers, including internal admin portals, dealership CRM, and national marketplace Comvoy.com.
- **Design System Architecture:** Architected complete design systems for Admin Portals (Svelte/SvelteKit) and CRM platforms, unifying UI tokens across typography, color, and layouts to eliminate engineering handoff friction.
- **Mobile CRM Redesign:** Led comprehensive overhaul of mobile CRM platform, driving measurable post-launch surges in mobile user engagement and field sales rep productivity.
- **Browser Extension UX:** Built browser extension interfaces allowing sales reps to access real-time commercial vehicle inventory and pricing data directly across browser tabs.
- **Frontend Contributions:** Authored production markup, CSS/SASS, and JavaScript within Git workflows and MVC frameworks; multiple-time recipient of "The Truck" award for outstanding company impact.

UX/UI Developer & Designer • **NeedDirect (The Distribution Point)** Mar 2016 – Apr 2019 | Chico, CA

- **E-Commerce Optimization:** Owned end-to-end product design and frontend execution for high-volume plumbing fixture marketplace ($50k+/mo revenue); migrated storefront to Shopify using custom Liquid templates, semantic HTML, and responsive CSS.
- **Conversion Uplift:** Redesigned complex product detail pages (PDP) to handle multi-tiered bulk ordering and lead-time calculations, driving directly measurable increases in checkout conversion.
- **Engineering Roadmaps:** Translated user analytics and wireframes into technical roadmaps and frontend markup for agile developer execution.

Product UX/UI Engineer • **DesignByHumans** May 2015 – Jan 2016 | Chico, CA

- **Funnel Optimization:** Spearheaded user flow optimization and storefront themes for a global apparel marketplace; conducted Google Analytics A/B tests to eliminate drop-off points in the buyer funnel.
- **Prototyping & Specs:** Created interactive prototypes and production-ready HTML/SASS/JS code bridging design concepts with engineering delivery.

UX Engineer & Interaction Designer (Progressive Roles) • **Build.com (Ferguson Enterprises)** Mar 2012 – May 2015 | Chico, CA

- **Mobile Web (2014–2015):** Established mobile-first UX standards and modular JavaScript components deployed across 12 distinct retail marketplaces; enforced web security standards (XSS mitigation).
- **Internal Search (Solr) (2013–2014):** Designed customer-facing search interfaces and internal "Search-in-dizing" administrative tools to manipulate Solr algorithms and improve discoverability.
- **Conversion & Thought Leadership:** Redesigned 12+ critical user interaction flows; authored featured article *"7 Website Search Hacks to Ace E-Commerce Conversions"* in Search Engine Journal; received Build.com Employee Honors and Q4 2013 Quarterly Award.

EDUCATION & HONORS

Academy of Art University, San Francisco • BFA in Web Design & New Media 2009 – 2013

Butte College, Oroville • Multimedia Studies & Graphic Design (STAND) 2004 – 2007

Awards & Recognition: Multiple-time "The Truck" Award (Work Truck Solutions) • Outstanding Performance Award & Q4 2013 Award (Build.com) • Management Certification (Oroville Adult School).
